

## Eyegaze Capability Statement

### Business Summary

To improve human communications, connection, and accessibility, Eyegaze Inc. develops the tools to measure human interaction. With a mission to “Empower every person to communicate equally,” our leading-edge technology provides a lifeline for those facing communication or accessibility challenges.

Eyegaze Inc. continues to extend its expertise to diverse research applications including defense and healthcare, offering precise and versatile eye-tracking tools that drive innovation across industries.

### Capabilities

1. **Powerful eye tracking technology** - Eyegaze in-house engineers develop technology based on meticulously designed image processing algorithms building from the ground up, based on in-depth understandings of human physiology and brain function.
2. **Tailored solutions** – In addition to AAC, our most accurate and reliable technology has been used in understanding sleep deprivation, human comprehension, driver monitoring application, aerospace research, and more.
3. **Commitment** – Eyegaze Inc. is a trusted company dedicated to improving lives through communication, connection, and accessibility. We are committed to advancing the state of the art in tools for measuring human interaction by continually refining precision, reliability, and versatility.

### Differentiators

1. **Pioneers:** Since 1988, Eyegaze is the exclusive provider of the device that works for the largest percentage of the human population, is most reliable and accurate fostering long-term success and satisfaction.
2. **Precision and Accuracy:** Our proprietary eye-tracking algorithms deliver unparalleled precision and accuracy, even in challenging environments or for users with complex movement patterns, ensuring reliable performance in any situation.
3. **Customization and Adaptability:** We understand that every individual is unique, which is why we offer highly customizable solutions tailored to each user's specific needs, preferences, and abilities, allowing for optimal comfort, efficiency, and effectiveness.
4. **User-Centered Design:** Our products are designed with the user in mind, prioritizing intuitive interfaces, ergonomic design, and user-friendly features that empower individuals to take control of their lives with confidence and independence.
5. **Ongoing Support and Training:** We provide comprehensive training and support services to ensure that users, caregivers, and professionals alike are equipped with the knowledge and resources they need to maximize the benefits of our technology.
